

Pre-Test: BRT Shelter

Discussion

Why do you think there is a growing interest in the idea of creating sustainable urban environments?

How do mass transit modes of transportation such as BRT travel impact environmental sustainability?

What are some of the benefits to communities when they promote alternative forms of transportation such as BRT transportation?

How do the weather, traffic, near by uses, crime conditions of a construction site influence the design requirements for the BRT shelter?

Survey

To what extent would you agree or disagree with the following statements:

1 - Strongly disagree 2 - Somewhat disagree 3 - Neutral 4 - Somewhat agree 5 - Strongly agree

Based on the discussion and my own experience...	1	2	3	4	5
I know a lot about creating sustainable urban environments.					
I understand why there is a growing interest in alternative modes of transportation.					
I understand the benefits of promoting alternative modes of transportation such as mass transit.					
I know a lot about transportation structures and the factors that determine transportation structure requirements.					
I have a solid understanding of the seven phases of design thinking.					

What Do You Picture?

Based on your discussions and thinking about your responses to the survey, sketch a few ideas that immediately come into your mind. It can literally be anything!
